

SUMMER '25 NEWSLETTER

Wells County District Health Unit

Septic Systems

Did You Know?

...that WCDHU issues septic permits for Wells County residents?

Our office is contracted with Central Valley Health District for Environmental Health Services. One of those programs includes on-site sewage treatment systems. Their department licenses installers and permits all new on-site sewage treatment systems and/or repairs to existing systems.

To get your septic permit or if you have questions, please call our office.

For more information, please visit our website: [Environmental Health and Safety](#).

Medication Management Services:

Wells County District Health Unit can assist with your medication management needs. A nurse can see you in home or in office bi-monthly or monthly to manage & fill your medications according to your primary care provider's order.

Give our office a call to learn more!

Back to School

As kids continue to grow, so do their vaccine needs. Keep your child protected with the appropriate back to school immunizations. Call our office to set up an appointment for recommended back-to-school vaccinations!

Grade K: MMR (booster), Chicken pox (booster), DTaP (booster), Polio (booster)

Grade 7: Tdap (tetanus) and MCV4 (meningitis)

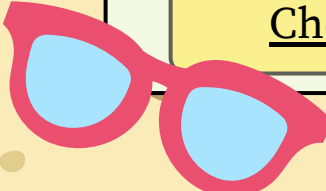

Grade 11: MCV4 (booster)
